FYI. \_\_\_\_\_ seems to turn up everywhere. I belong to a mailing list that deals with health fraud and it seems \_\_\_\_\_ also belongs. See his message below - says he's written an article about Synergy that's posted on his website.

Been away from the e-mail for a couple of days, and I see there has been a ton of interesting discussion about mental health issues.

Of course, I am very active in the \_\_\_\_\_ and we have been quite concerned with one particular outfit, Living Synergy, which originated in southern Alberta (Cardston to be exact). This company, started by a family, have been going all around North America encouraging mental health patients to get off their meds.

They have their web site at [www.truehope.com](http://www.truehope.com)

I wrote a story about this firm \_\_\_\_\_

\_\_\_\_\_ there is no doubt in my mind that the people who dream up these schemes look for vulnerability as a selling feature. Unfortunately the mentally ill fall into that category.
