Subject: Re: Videoconference - tentative dates

Hello,  
the meeting mentioned below is the ultimate follow up to a meeting we had with TPD a while ago on clinical trials with the Synergy product. I would like to ask (and hopefully anticipate) that you (Heather, Michelle, and Peter) would also attend from our office. This will be important, as it can be a catalyst for stimulating our thoughts on clinical trials for NHPs. Also, in the meeting itself, I am sure issues will come up that we have not anticipated, and this will also further our considerations. I think we should view this as a great opportunity to further develop, and somewhat test, our ideas with respect to clinical trials. I would appreciate hearing any input into how you think we should proceed to prepare ourselves for this meeting.

Also, as a slight aside, I would like to know what your suggestions are as to who should set up, and pay for, this meeting.

Thanks,  
Phil

Phil,  
Please see note below - we will attend the videoconference - would your office be able to set it up?  
Please advise.  
Siddika

Siddika,  
The Synergy people seem pretty flexible for August. I am waiting to find out whether the videoconference room is available on all those dates. One small question: will your facility be able to place the call and pay for it? I don't know what budget it would be legitimate for me to charge this to.

000312

It appears that I will have trouble knowing Dr. Simpson's schedule until he returns from holiday. Our first meeting together is Aug 1 (we meet weekly). Given his holiday schedule, and also Phil Waddington's holiday schedule, I would suggest we lean toward the week of the 13th rather than the 8th. But as I find out more, I'll keep in touch with you.

One small correction: we are 2 hours behind you, not 3. So we could start at 1 p.m. your time if you like.

Thanks also for sending the clinical trials info. I can certainly see why you have consistently told me that we should be reviewed by Natural Health Products.

Bonnie
