Objet : re: CHREB guidelines

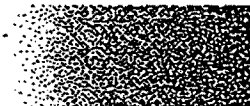

As a follow-up of our meeting yesterday, I have drafted a letter to be sent to the REB at the University of Calgary with factual information regarding the ongoing clinical trials. Based on Phil's e-mail below, this letter would be addressed to Ian Mitchell.

We have not (as of yesterday 4pm) received an Application from Bonnie Kaplan, although the deadline for her application would be October 12th (or perhaps even the 15th) since the letter dated September 10th was sent to her by regular mail.

I will keep you posted.

Siddika

Attached are all of the messages I have which reference the REB and their review. I know I have asked Bonnie Kaplan to send TPD any information that is sent to me, and that I spoke to Joan on this (message below). I recall that it was decided in one of our joint TPD, Inspectorate, NHPD meetings that I would contact Bonnie to request information about the REB, and that we discussed the results in our meetings of May 15 (before receiving REB response) and May 18 (after). Still, although this information was

000138A

discussed, I do not have a copy of these specific messages being forwarded and I apologize if information was missed because of that.

Phil

Dr. Ian Mitchell
Office of Medical Bioethics

Dear Dr. Mitchell,

I have been asked by Dr. Phil Waddington, Director General of the National Health Products Directorate of HPB, for a simple, explicit statement of the guidelines followed by the Conjoint Health Research Ethics Board of the University of Calgary. I was able to say "Tricouncil Policy," but could go no further.

Is there anything you can add to that? When you answer, would you please hit "Reply All" so that Dr. Waddington receives your reply?

Thanks for your help,
Bonnie
