Dear Dr. Bronston:

Thank you very much for the copy of the Los Angeles Times article on Dr. Heimlich's IMT.

I find it very unfortunate that so much money is being wasted in such a procedure, and I also think a close watch must be kept in order to stop this and other alleged procedures that only prey on patients' desperation, raising false hopes and wasting, unfortunately not only money but valuable time which AIDS patients are very short of.

Please keep me posted on any news regarding Dr. Heimlich and let me know if there is anything else we can do about this matter.

Sincerely,

Carlos del Río, M.D.  
Director General
