Dear Betsey.

In response to your request
I wish to advise that I wish to comment
Project 5004 - Phototherapy.

We have had outstanding success
with stimulating white blood cells with
ultra violet light. We are able to do
a before and after appearance with
High Resolution Blood Morphology
which we record on film.

Sorry to give this up but
I don't know where to go with it -

Sincerely
W. Mauer DO.
