Dear Dr. Friedman,

The UCLA AIDS International Training and Research Program conducted training activities with Dr. Chen Xiao Ping, but did not conduct research projects with the Center for AIDS Control and Research, Municipal Health and Anti-Epidemic Station in Guangzhou, China. The training activities with Dr. Xiao Ping Chen and his staff were completed by February 2000.

Thus, it would be appropriate to request that Dr. Henry Heimlich omit future reference in interviews or publications to UCLA's "association with" malariotherapy or other research projects at that site, or with the Heimlich Institute.

John L. Fahey, M.D.
