The ACAM IRB officially approved your protocol on Chelation Therapy for arteriosclerotic disease at the November 5, 1994 board meeting. At this time you are to forward \$250.00 to the ACAM office which is your completion fee.

It is imperative that you follow the guidelines and your responsibilities as a clinical investigator. You must report all untoward reactions which are not reasonably expected.

A brief update on the progress of your study is due annually; forms for this purpose will be provided by the IRB. An annual fee of \$100.00 is payable to ACAM and you will receive a bill when it is due.

Enclosed is a copy of the rules of ACAM IRB for your review.

Further, you will notice an amendment to Paragraph 6, A, which includes "improved non-invasive vascular studies."

If you have any questions, please direct them to Kimberly Mossburg at 309-367-2321.

Sincerely,

Kimberly Mossburg
ACAM, IRB Secretary
